*Eduardo Saltijeral the agent sat before me the time of the injury. Also a Surveillance Camera was right on me as I looked up. I was so glad. The tape needs to be Subpoenaed at the time of my Court Case. I will bring every bill the same one's I issued Social Security. IS You need them Now let me know. My husband was there, and the paramedics said they would testify also is needed. I spoke with them & they remembered me well. I have a report also from them. Because it was denied with so much proof with the agent & Surveillance Camera I am so hurt America does not use evidence for Justice. The SS in Woodridge even changed all those charges and took them out. Why? They knew it was not safe, yet they say, "We can't do it sorry" I want Justice.*
